DETAILED ACTION

1. The Request for Continued Examination (RCE) filed 1/13/2010 is acknowledged. Claims 10 and 12-17 are allowed.

Allowable Subject Matter

2. Claims 10 and 12-17 are allowed.
3. The following is an examiner's statement of reasons for allowance: The closest prior art that was found was PARE, Jr. et al. (US 5,764,789). Pare disclose a system for customer for having register with a computer system with a PIN and biometric data. The customer registration comprises assigning an account index code to each of the customer's financial accounts. The customer may arrange their financial account index list into checking and saving accounts. Unlike the applicant's invention, the registering institution must be the bank of the financial institution that provides the accounts (see column 20, lines 47-53). Although Pare later states that if a financial account is registered with the participation of the issuing institution, as would be the case when accessing a second customer account held at another financial institution, the financial account owner must sign an agreement a the time of registration authorizing the release of funds whenever an account access is received that is authorized by biometric same and PIN (see column 21, lines 6-17). PARE and DOWNING in view of GEPHART fail to teach alone or in combination "...transferring funds from or to a user's financial account held at one institution and the user's financial account held at another institution....navigating by proxy to the Web pages of the first and second financial institutions via an automated browser on the Internet, logging into the accounts on behalf of the user with the user's account name and password and transferring the specified funds from the account of

Art Unit: 3693

the first financial institution to the account of the second financial institution.” Thus the aforementioned claims are allowed. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

Conclusion

1. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

US Patents:

PARE, Jr. et al. (US 5,764,789) discloses a token less biometric ATM Access system
